NSF Funding Rate by Principal Investigator (PI) Demographic Schema Description

```
<PIDemograhicsFundingRates> = Body
The statistics included here are based on demographic data self-
reported by PIs.

        <FY> = The fiscal year of proposal decision.

                <AllPIs> = Funding Rates for all PIs. Funding Rate is
                calculated as the number of awarded proposals divided by
                the number of awards and declines.

                <FemalePIs> = Funding Rates for female PIs.

                <MalePIs> = Funding Rates for male PIs.

                <MinorityPIs> = Funding Rates for PIs belonging to an
                underrepresented ethnic or racial minority, including
                Hispanic or Latino, Black or African American, Native
                Hawaiian or Pacific Islander, or Native Alaskan.

                <NewPIs> = New PIs are those PIs who have not served as a
                PI or co-PI on any award from NSF with the exception of
                doctoral dissertation awards, graduate or postdoctoral
                fellowships, research planning grants, and conference,
                symposia, or workshop grants.

                <PIsWithDisability> = Funding Rates for PIs with
                disability.

                <PriorPIs> = Funding Rates for prior PIs.  Prior PIs are
                those PIs who have served as a PI or co-PI on a previous
                NSF award.
